

Appendix E Study Guide

A list of all Dr. Stone's charts showing Standards for Practice references plus 3 Principles and Craniosacral references

NOTE: Elemental categorization in Appendix E is based on Jim Said's "Process-Oriented" sequence, NOT the customary elemental attributes. Process stages are: I: General Relaxation, II: Gas Releasing; III: Nervous Systems; IV: Balance Cerebrospinal Nervous Systems with Vital Actions and Centers; V: Manipulative balance
